Summary

React Native developer with 6+ years of experience. Well, exposure to javascript frameworks such as React Native, Node Js , React Js, Next js, Realm, Tailwind css, Html, Css, BLE(Bluetooth), Native modules(Java/ Objective - c) whenever required,builder.io, Offline application.I am eager to join a team of developers and help build world-class mobile apps as well as web app.

Experience

Software Engineer

ValGenesis • Chennai, TN
08/2024 - 03/2026

- Gained strong understanding of the pharma lifecycle validation process and contributed to product-related development activities.
- Designed and developed responsive UI for both Android and iOS applications, ensuring platform-specific consistency a usability.
- Demonstrated expertise in Realm DB for building high-performance offline-first mobile application
- Implemented Excel, Word, and PDF processing functionalities, enabling file operations and seamless document handli ng within the app.
- Strong proficiency in WebView integration, including handling complex HTML, JS bridges, and hybrid feature Conducted daily code reviews to maintain code quality, enforce best practices, and support team velocity.
- Mentored junior developers, providing guidance on coding standards, debugging, and architectural decisions.
- Improved overall code quality, optimized performance, and contributed to unit test coverage for critical modules.
- Deep understanding of React Native architecture, including state management with Redux and MobX, navigation patterns, and modular code design

Software Analyst

Bounteous • Chennai, TN
05/2022 - 08/2024

- Developed Finance tech based mobile application using React native.
- Maintained code scalability and implemented good folder structure with all the necessary layers.
- Worked on Push notification using firebase, also worked on offline storage like realmDB.
- Developed web application (FTD) using next js, tailwind css & storybook.
- Having good knowledge on Next js also CMS tool like builder.io
- having hands on experience in node js.
- Used to followed agile method & JIRA sprint methodology.

Software Engineer

Technonix Infosystem • Chennai, TN
07/2021 - 05/2022

- Strong knowledge of React-native cli as well as expo cli
- Developed, Kunye financial application for both Android & iOS platform
- Having depth knowledge with lifecycle(hooks) and state management concepts
- Collaborated with cross-functional teams to ensure quality assurance throughout the development process.
- Optimized applications for maximum speed and scalability while ensuring compatibility with various browsers and devices.
- Developed the mobile application using React Native, Redux, and JavaScript, achieving a responsive and high-performance user experience.
- knowledge on postman, git, mongoDB

Software Engineer

InFocus Research Labs Private Limited • Chennai, TN

12/2019 - 06/2021

- Led UI/UX design efforts using Figma, ensuring a user-centric and visually appealing app
- Developed the mobile application using React Native, Redux, and JavaScript, achieving a responsive and high-performance user experience.
- Created applications using HTML, CSS, JavaScript, and other programming languages.
- Optimized program performance by analyzing code and making changes as needed.
- Wrote unit tests to verify the accuracy of each feature before deployment.
- Documented all development activities according to best practices.
- Participated in code review meetings, providing input on bugs, inefficiencies and potential solutions to emergent issues.

Skills

JavaScript, TypeScript, ReactJS, React Native, Redux, Node.js, MongoDB, Builder.io, Java, Objective-C, Figma, Bluetooth (BLE), HTML, CSS, Jest, Design Patterns, GitHub, CI/CD

Education

Bachelor of Electronics & Telecommunication Engineering

Sathyabama University • Chennai, TN
07/2019
6.79 CGPA

HSC

St. Mary's Higher Sec School • Nagercoil, TN
03/2015
76%

SSLC

St. Antony's Higher Sec School • Nagercoil, TN
03/2013
82%

Languages

Tamil, English
